

Description

Application

Polyclar 10, PVPP

(Polyvinylpolypyrrolidon)

Selective adsorption of protein-phenol complexes in beer

Polyclar V, PVPP

(Polyvinylpolypyrrolidon)

Selective adsorption of protein-phenol complexes in wine

Stabifix W,

high-purity amorphous silicic acid hydrogel

Selective adsorption of high-molar-mass protein compounds in beer

Stabifix W,

high-purity amorphous silicic acid xerogel

Selective adsorption of high-molar-mass protein compounds in beer

Celite Cynergy® 200HS

beer stabilising Diatomaceous Earth

Simultaneous beer clarification and stabilisation
