Description	Application
Polyclar 10, PVPP (Polyvinylpolypyrrolidon)	Selective adsorption of protein-phenol complexes in beer
Polyclar V, PVPP (Polyvinylpolypyrrolidon)	Selective adsorption of protein-phenol complexes in wine
Stabifix W, high-purity amorphous silicic acid hydrogel	Selective adsorption of high-molar-mass protein compounds in beer
Stabifix W, high-purity amorphous silicic acid xerogel	Selective adsorption of high-molar-mass protein compounds in beer
Celite Cynergy® 200HS beer stabilising Diatomaceous Earth	Simultaneous beer clarification and stabilisation
