

## Description

## Application

### **Polyclar 10, PVPP**

(Polyvinylpolypyrrolidon)

Selective adsorption of protein-phenol complexes in beer

### **Polyclar V, PVPP**

(Polyvinylpolypyrrolidon)

Selective adsorption of protein-phenol complexes in wine

### **Stabifix W,**

high-purity amorphous silicic acid hydrogel

Selective adsorption of high-molar-mass protein compounds in beer

### **Stabifix W,**

high-purity amorphous silicic acid xerogel

Selective adsorption of high-molar-mass protein compounds in beer

### **Celite Cynergy® 200HS**

beer stabilising Diatomaceous Earth

Simultaneous beer clarification and stabilisation
